

TCM Forklift Parts

TCM Forklift Parts - In the global trade of material handling, lift trucks play a major part for transporting industrial goods. Primarily innovated as industrial vehicles in the 1930s in the United States, forklifts gained popularity after WWII in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machinery spread globally.

In nineteen forty nine, started by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Now the business is simply referred to as TCM Corporation. Throughout the years, TCM forklifts have become a worldwide leader in lift truck manufacturing and have built a solid reputation with the trade. TCM began constructing lift truck manufacturing sites outside of Japan during the 1980s and is currently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly manufactures various models of industrial lift trucks with more than 50 years of accumulated expertise and technology, making their products used and recognized all around the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aims to become a world-class leading company.
