

Meritor Part

Meritor Part - The Meritor Company is a premier international supplier established upon one hundred years of custom of quality and service. Meritor focuses on integrated systems with several modules and components to the original machinery manufacturers and aftermarket equipment in the transportation and industrial trades.

Meritor prides itself in the company's unique energy and thinks that this particular energy contributes to their competitive advantage within the international operations. The business values their customers and wants to ensure their success while anticipating their different requirements. Meritor starts with a culture that values diversity of people and their broad thought processes. Operating in 19 nations and hiring over 11,200 individuals, Meritor promotes collaboration and innovation among a team of knowledgeable professionals.

By only hiring future focused staff, Meritor strongly believes these top-caliber workers will be able to quickly get used to to changing environments and demonstrate the performance and commitment required in order to achieve results in the competitive materials handling business. The business empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides all of their employees different opportunities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes axles, drivelines, suspension and braking systems meant for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is even responsible for supporting the requirements of all their worldwide engineering employees.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities that are situated all over the world in 19 countries and in 5 different continents.

The supplier development network is specially located so as to support new business development. Regional teams are supported by global centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making within each part of the trade. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is likewise comprised of transactional Green Belts who make use of Six Sigma tools to business processes and apply lean techniques.
